

THE FIVE BENCHES

Shape, cut, *strike*

Every tool in the catalogue belongs to one of five families.

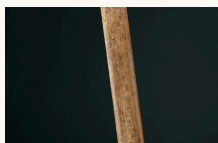

Planes

No. 4 to No. 7

Chisels

6 to 38 mm

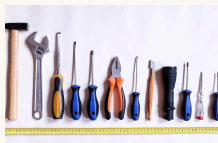

Hammers

8 oz to 3 lb

Wrenches

Metric and imperial

Everyday

Measure and mark

MAKER'S NOTE

What is *in* a plane

Every tool ships with a card like this one.

BODY

Seasoned beech, steamed and oiled

BLADE

High-carbon steel, 3 mm thick, ground flat

MADE FOR

Flattening and smoothing board faces

CARE

Back off the blade, wipe, wax the sole

LOOKING AFTER IT

Four habits for *forty years*

Small things, done often, keep a tool working for generations.

01 Keep it dry

Wipe steel after use and store it away from damp.

02 Keep it sharp

A few strokes on the strop each session, a stone each month.

03 Keep it oiled

A thin coat of oil on steel, wax on wood.

04 Keep it ours

Send it back when it needs more than you can give.
